PROJECT ZERO

BRANSON, MISSOURI & SURROUNDING AREAS

Home Improvement & Build Guide

Handyman repairs, paint ideas, and planning a home in the Ozarks.

HOME EXTERIOR CONCEPT ILLUSTRATION

PROJECTZEROBRANSON.COM

HANDYMAN & REPAIRS

What needs fixing?

Walk through your home and make a list, one room at a time.

Illustrative example

Walls and drywall

Note picture-hook holes, dents, or old patches you want smoothed out.

Doors and hardware

List doors that rub, stick, or fail to latch. Note when it happens and where the door catches.

Trim and baseboards

Point out chipped paint, gaps, or loose trim. Note any pieces you want to keep or match.

Paint touch-ups

Share the room, surface, and existing paint color or finish if you know it.

What to send for an estimate

Send a wide photo of each room, a close-up of each item, and the jobs you want handled first.

Request a free estimate

PAINTING

Same room, three ways.

See how three wall colors change the feel of the same living room.

Muted Olive

An earthy green that brings out the warm wood and woven textures.

Warm White

A soft neutral that brightens the wall and makes the dark sofa stand out.

Deep Charcoal

A deeper tone that draws the eye to the white trim and lighter textiles.

Paint visualizations. Actual color varies with lighting and finish.

What do you want painted?

Decide whether to include walls, ceilings, trim, or doors. Check a paint sample in your room in daylight and again with the lamps on.

NEW CONSTRUCTION

Thinking about building in the Ozarks?

Start with what you already know about your property and your plans.

Exterior concept illustration for discussion

I have land.

Share the address or general area, a few lot photos, and any questions about access or the slope.

I’m still looking.

Tell us where you’re looking and what matters most to you about the setting.

I have an idea.

Bring a few images and point out the details you like, whether that’s the covered entry, the windows, or the garage.

Talk through your build

HOME PLANNING

Build around your day.

Picture an ordinary Tuesday. Which rooms would you want close together?

Room to host

Kitchen	**Dining**	**Outdoor seating**

Picture carrying food outside or talking with guests while you cook.

A quieter home

Living room	**Hall**	**Bedrooms**

Think about who needs a quiet place while others are watching TV or entertaining.

An easier arrival

Garage entry	**Drop zone**	**Pantry**

Follow your usual path with groceries, coats, shoes, and bags in hand.

Concept layouts for discussion only. Not for construction.

What would make the biggest difference in your day?

NEXT STEP

Tell us what you have in mind.

Use this page to pull together the details for your first conversation.

Where is the property?

City, neighborhood, or lot location if you know it.

What do you want to change or build?

List the rooms, repairs, features, or ideas you want to talk through.

What comes first?

Note your must-haves, anything with a deadline, and what can wait.

What else would help us understand the project?

Bring a few photos, your timing, and a budget range if you have one.

Your project starts with a conversation.
